

Serving and picking trolleys

With straight shelves

[®]RasterPlan

Application:

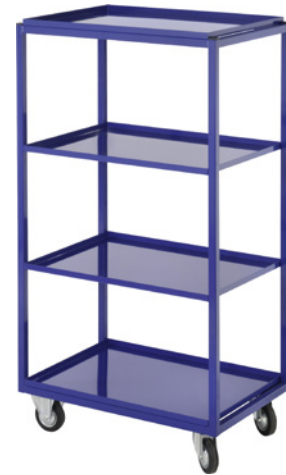

Serving and picking trolleys are indispensable wherever parts, e.g. work equipment or goods to be picked, have to be gathered frequently from different places.

Version:

- Sturdy steel structure, impact and scratch resistant plastic coating
- With straight shelves
- Runs on easy-running rollers – 2 fixed castors and 2 steering rollers with locking device

Delivery:

Tips for ordering: Please specify your choice of colour on your order; otherwise, it will be chosen at random.
