### Test Leads with 2 mm probe tip and sleeves

Safety test leads according the IEC / EN 61010-031:2008 in 4 mm safety technology - rugged style - modern design - cablelength 120 cm angle plug 90°.

Measurements in the field of overvoltage category CAT I or CAT II can be performed with test leads without sleeves with a maximum of up to 18mm long, touchable metallic probe, whereas for measurements in the field of overvoltage category CAT III or CAT IV test leads with put on sleeves, printed with CAT III and CAT IV must be used, and therefore the touchable and conductive part of the probes have only max. 4 mm of length.

- High-flexible PVC testleads red/black. Industrial standard with 2 mm probe tip and sleeves.
