

Power cube + positioner

With 6 sockets and 2 CEE socket

AUTOSTAT

Application:

Ideal for supplying power and compressed air from above. Positioner keeps the energy unit exactly at the required height. For the insertion of consumers, the power cube can be pulled down. It can then be raised out of the work area to a non-disruptive height, where it can remain in position.

Advantage:

- no disruptive cables in the work area
- easy to use
- no „spring upwards“ as with the spring balance
- Positioner holds the position even if there is a change in the attached weight

Delivery:

- Power cubes WITHOUT connecting cable
- Positioner

Art. no.	77009 250
Brand	AUTOSTAT
Manufacturer Part Number	77009250
Number of sockets (Safety plug)	6 PCS
Number of sockets (CEE)	2 PCS
Nominal voltage	250 V/AC
Nominal voltage 2	400 V/AC
Width x height x depth	227 x 305 x 212 mm
Colour	Blue, Black
IP protection class	IP 44
Weight	2.5 kg
Gross Weight	4.010 kg
Product Group	750
