

ESD-MultiCLEAN surface cleaner

Finished solution

ESD MultiCLEAN®
by ESD-Protect

Surface cleaner for daily cleaning inside your EPA. Special cleaner for dissipative and conductive surfaces. Perfect for the cleaning of ESD-workareas and workstations. Spotless removing of any stain. Easy to use, spray bottle or canister available.

Pack

Usage

ESD-MultiCLEAN surface cleaner is used undiluted, spray it on the area that is to be cleaned. After 2-3 minutes wipe the area with a clean rag dry.

Ingredients

ESD-MultiCLEAN surface cleaner contains surfactants, phosphates, auxiliary materials and scents. All ingredients are easily degradable.

Benefits

- Preserves the conductivity levels of ESD-surfaces
- Does not leave any isolating residue
- Fully bio-degradable
- Pleasant citrus-scent, low expenditure, unlimited storage duration
- pH-neutral, material- and skin-friendly
- Reaches the requirement of DIN EN 61340-5-1

EP1204004	Surface cleaner	10 l canister
EP1204008	Spray nozzle	
EP1204007	Spray bottle, empty	(without spray nozzle)
EP1204009	Canister tap	

ESD-MultiCLEAN floor cleaner

Concentrate

ESD MultiCLEAN®
by ESD-Protect

Highly effective and powerful cleaner, for either manual or machine use, for use on ESD-floors. Distinguishes itself with quick and thorough stain removal. Its net-effect loosens dirt even from the smallest crevices. Oil, fat, resin, wax, insect dirt, food residue, soot- none stand a chance. Cleans while being material-friendly and non-abrasive, to floors such as tiles, wood, lioleum, PVC, rubber, natural stone.

Usage

Depending on staining ESD-MultiCLEAN floor cleaner should be diluted with water by 1-to-5-% (100-500 ml on 10 l water). Wipe the floor with this solution and let the remaining moisture dry off.
