TE Connectivity

Product Change Notification: E-20-005025

PCN Date: 06-APR-20

Customer: TTI, Inc. (1305175)

Location: Maisach-gernlinden

Agreement: TTI001

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Solder devices as per attached list of parts.

Description of Changes

Flux change in solder preform from ROL1 flux with HBCDD to ROM1 flux without HBCDD.

Reason for Changes:

Product Improvement. Certain products within our Devices product line have been manufactured with a ROL1 flux containing Hexabromocyclododecane (HBCDD) instead of ROM1 flux free of HBCDD. ROL1 flux containing HBCDD is being replaced with ROM1 flux free of HBCDD to be compliant with applicable laws and regulations and TE specifications. We are changing to a flux that does not contain HBCDD and meets all performance requirements and complies with internal TE specifications and external agency specifications, including the applicable MIL specifications as required, in order to comply with applicable regulations. Some customers may receive mixed shipments for a few weeks as we switch flux materials.

Estimated Dates:

Last Order Date (Obsolete Parts Only):

First Date To Ship (Changed Parts Only):

23-APR-2020

Last Ship Date (Obsolete Parts Only):

Last Date for Mixed Shipments: (Changed Parts Only):

30-MAY-2020

Part Number(s) being Modified:

Part Number	Part Discontinued per PCN	Customer Drawing	Customer Part Number	Alias Part Number(s)	Substitute Part Number	Substitute Alias Part Number(s)	Description Of Difference
