Process Change Notification

Date: March 14, 2014
PCN Reference: S21000
PCR Reference: # 121
Product Reference: Gen 10.7 40V TO-220 IRFB3607PBF

To Our Valued Customer:

As always we appreciate your use of International Rectifier semiconductor products. Our commitment to customer satisfaction and continuous improvement is demonstrated by our change plans to enhance capacity, quality and reliability. This notice is to inform you of the following changes.

We would like to express our sincere appreciation for your cooperation regarding the following changes, and IR will work closely with you to support your requirements during this transition.

Type of Change Notification:

Qualification of additional wafer source

Description of Change:

Qualify foundry

Reason for the Change:

Additional manufacturing site

Effect Date:

June 14, 2014

International Rectifier will consider this change approved and will implement it by the effective date unless specific conditions of acceptance or sample requests are provided in writing within 30 days of receipt of this notice. Please submit conditions of acceptance and sample requests to the PCN coordinator listed at the end of this notice

Impact of Change:

There will be no impact to the fit, form or function of the parts. There will be no change to the datasheet parameters.

Products Affected:

Parts	Description
IRFB3607PBF	MOSFET, 75V, 80A, 9 mOhm, 56 nC Qg, TO-220

Qualification:

Parts passed all the reliability testing requirements. Reliability qualification report is available upon request. Qualification standards can be found on International Rectifier’s web site at www.irf.com/product-info/reliability.

Supporting Data Availability:

Contact IR for supporting data on this change.
