Description

Multicomp Pro 350 Power Connector is a wire-to-board system that offers a 3.50mm pitch, a higher-current rating of 14.0A, and superior design options for flexibility and efficient assembly

Features

- Multiple mechanical keying
Allow same-circuit, multiple connector use with virtually no chance of cross mating
- Fully isolated terminals
Protect against potential damage of the header and receptacle terminals during handling and mating
- 5562 & 5563 Series low mating force terminal (Reduce the insertion force terminal)
Reduces operator fatigue and improves assembly compliance
- 17% reduction in pitch over similar power connectors
(Compared with similar power connectors, the spacing is effectively reduced)
Current-dense design saves PCB space
- Terminal interface with six independent points of contact (split-box terminal design)
Offers alternate current paths for long-term performance and reliability
