

Wireless temperature data logger

Model testo Saveris 2-T1

Application:

Wireless temperature data logger with integrated NTC temperature sensor. Ideally suited for temperature monitoring and documentation of e.g. storage, cooling and working rooms.

Advantage:

- Readings are transmitted wirelessly via WLAN directly to the testo Cloud
- Access to all readings and analysis functions via smart phone, tablet or PC system with an Internet connection
- Alarm function (optional) sends an immediate warning via email or SMS if, for example, ultimate limits are exceeded
- free online data storage in the cloud

Delivery:

Wireless temperature data logger testo Saveris 2-T1, micro USB cable, wall bracket with lock, batteries (4 x AA AIMn Mignon batteries), quick start guide, calibration log

Art. no.	46200 300
Brand	TESTO
Manufacturer Part Number	0572 2031
Model	testo Saveris 2-T1
Min./max. temperature measuring range	-30 to 50 °C
Digit increment (measuring instrument for temperature)	0.1 °C
Accuracy temperature	+/- 0.5°C
Measuring rate	A measurement every 15 minutes
Measured value memory	10000 measuring results
IP protection class	IP 65
Battery designation	Micro AAA; R03; UM4
Number of rechargeable batteries/batteries	4 PCS
Sensor type	NTC
Gross Weight	0.483 kg
Product Group	4CF

EAN

4029547017421
