

Sanding disc wing door cabinets

With swivel arms and mounting spigot

Application:

For the safe storage of sanding discs with a diameter of 400 to 500 mm.

Execution:

- Robust and welded steel sheet structure with solid sheet doors
- Frame with an angle steel frame structure with swivel arms
- Each swivel arm has a mounting spigot (based on questionnaire - see info box), which matches the sanding disc flange
- **Available on request:** also without mounting spigots. Optional swing-out prevention for the swivel arms to stop multiple discs swinging out simultaneously.

Advantage:

- Safe and quick removal of sanding discs
- No damage to sanding discs thanks to proper storage
- No water pooling and thus no unbalance thanks to the sanding discs being stored horizontally
- Production quality assurance in manufacturing

Art. no.	50634 653
Brand	TUREX
Number of pivot arms	6 PCS
For sanding disc diameter	400 mm
For sanding disc thickness	100 mm
Width	600 mm
Depth	450 mm
Height	900 mm
Load-carrying capacity per pivot arm	60 kg
Load-carrying capacity	360 kg
Cabinet colour	Light grey RAL 7035
Colour of front	Anthracite grey RAL 7016
Gross Weight	70.000 kg
Product Group	559
