

Plier wrench, quick adjustment

with multi-component handles

Application:

For clearance-free, safe gripping of parallel surfaces.

Execution:

- Chrome-vanadium electric steel, forged, oil-hardened
- Flat, parallel gripping jaws
- Replaces a complete set of wrenches thanks to infinitely variable gripping of all wrench sizes

Advantage:

- Safe, ergonomic and fatigue-free working thanks to two-component handles
- Quick direct adjustment to workpiece via pushbutton
- High degree of clamping force due to 10x more manual force
- The stroke between the gripping jaws enables rapid tightening and loosening of bolted connections using the ratchet principle
- Also suitable for bending sheet metal or breaking tiles

Art. no.	53076 090
Brand	KNIPEX
Manufacturer Part Number	86 05 150
Length	150 mm
Width across flats	27 mm
Surface	Chrome plated
Material of handle	2-component plastic
Gross Weight	0.210 kg
Product Group	535

EAN

4003773069928
