*SBU (2-digit) / PG (3-digit) / PUG (3-digit) / Type (10-digit)

2 Type of change

- Modified packaging label
- Improved identification: product configuration code on the label

3 Detailed description of change

The following table describes the modifications applied to the new packaging label. All listed product types share the same packaging label design. To better visualize the modifications, colours and numbers were added to this chapter to cluster information into sections (the colours and white numbers are therefore not part of the new label layout). An old and a new label has been added as an example for visualization.

Product identification section: To improve readability, all the information concerning product identification in this group is clustered. Furthermore, some of the content / text of the label is subjected to following changes (see highlighted red areas on the labels of the following page):

- Configuration Code: Has been added.
- Part Description: Has been updated for some part numbers (harmonize description & improve identification). "Fuse Clip" and respective fuse size compatibility was added

1

→ For details on text / content that has been changed please see list attached to this PCN.

Product conformity section: Identical information, slightly rearranged.

- UKCA conformity symbol added to CE conformity symbol, see reference: PCN from 2021 [D10-059-659](#)
- WEEE (**W**aste **E**lectrical and **E**lectronic **E**quipment **E**uropean Directive 2012/19/EU) symbol was removed as this does not apply for SCHURTER fuse clips.

2

Product logistics section: Identical information, slightly rearranged.

3

Product approval section: Identical information, slightly rearranged.

- Only cURus approval symbol remains on the label

4

Product rating section: Slightly rearranged. Following changes:

- Mounting and material details have been removed. They can now be found in the section "Product identification"
- Electrical ratings have been added and harmonized

5

Origin information section: Identical information, slightly rearranged. Factory Code identifier "FC" added.

6

4 Reason of change

SCHURTER improves and modernizes the label printing process to increase standardization and harmonize processes throughout all SCHURTER factory locations.

5 Release date

Packaging labels will be changed earliest in week 08/2022 (Date code 2208 or higher on the label).

Product Change Notification					Global Labeling Part 11 Fuseholder		
owner	creation date	release date	released by	change order no	rev	page	D10-059-897
zbindeja	19.08.2021	24.01.2022	schulejo	2022537	A	2 of 3	

6 Impact of change and recommended action

Form	No	
Fit	No	
Function	No	
Manufacturing	No	
Label	Yes	No actions required since barcode & 2D-code are not affected by the change.
Packaging	No	

7 Reference Documents / Attachments

Kind of document	Remarks
List of affected part numbers	List contains a comparison of text / content between old and new labels in reference to chapter 3. "Product identification section"
