

Product Change Notification (PCN)

PCN Number	511034	Date Issued	October 08, 2021
Reason for Change	Change Supplier		
Change Type Description	This letter is to inform you that Molex is adding a new supplier or the supplier is making a change affecting the part(s) identified in this notice. There will be no negative impact to product performance as a result of this change.		
Assessment of Change	Test report/Specification Test Report		
Internal Molex Qualification Date	October 05, 2021		
Sample Availability Date (Changed Part)	October 05, 2021		
Planned Implementation Date	April 08, 2022		
Method of Identifying Change	Special marking on the product or packaging		

RFI EASFD

Before Change

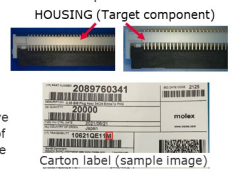

After Change

Background of PCN reapplication

- Due to the shortage of raw materials continuing since the beginning of this year in global, the supply of resin used in our FD19 and FS19 series has been decreasing. Under these circumstances, in order to maintain the delivery of our products to our customers, we applied for additional material for the molded parts of this product in July of this year (PCN#510701, #510702).
- However, since this product is used by many customers and the impact of the short-term change plan on customers would be very large, we decided to cancel the change plan (PCN#510813, #510814), and tried to manage to secure the material by adjusting its allocations in our overall production plan.
- However, the raw material shortage is still continuing, and the situation the resin used in this product is expected even more severe with no signs of recovery, until the latter half of 2024.
- Under these circumstances, continuing production using only raw materials with supply risks would become a large risk for our delivery to customers, and we would like to avoid this risk by applying for a change notice again.

Change Overview

- Changes: Add an alternative resin for HOUSING production
 - Current: Production by Resin A
 - After change: Production by Resin A or Resin B (depend on material procurement situation)
- Target Part Number: see attached impacted parts list
- Product Impact: Though it may see a slight shade difference, there is no other expected change regarding form, fit and function.
- Identification: For first 6 months of the production start by the alternative resin, we will add "M" at the end of Traceability number of the carton label to identify products made from alternative materials.
- Different series of products produced in different Molex site by using subjected items as component are also considered as impacted by this PCN. But there is no change to these products either.

Product Change Notification (PCN)

You may address any technical inquiries regarding this PCN by sending E-mail to pcn_coordinator@molex.com or your Local Sales Engineer.

Note: While responding, please retain "**PCN Notification:511034**" in the e-mail Subject line for faster response.
