<b>Change Description:</b>			
<p>To increase manufacturing flexibility and ensure long-term continuity of supply, Atmel will manufacture devices listed above using both gold (Au) and copper bond (Cu) wires. Atmel reserves the right to ship devices with either gold or copper bond wires. The change does not impact reliability, soldering profiles or electrical characteristics. Qualification data is available upon request.</p> <p>Copper samples can be ordered through Atmel Sample Centre by logging on to <a href="https://samples.atmel.com/scripts/samplecenter.dll?atmel?cmd=menu">https://samples.atmel.com/scripts/samplecenter.dll?atmel?cmd=menu</a>, lead time 4 to 8 weeks.</p> <p>Specific ordering codes for copper samples only are shown in the table below, and are available for sample orders only until the proposed first shipment date. For all production orders, only standard existing ordering codes will be accepted.</p>

**Proposed First Ship Date\*:** March 18, 2015

*\*The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.*
