

Safety goggles with frame

SecureFit™ 400X model

3M

Execution:

- Integrated eyebrow protection: Sits comfortably on the forehead and provides protection against airborne particles
- Temple pressure distribution technology distributes pressure above the ears, increasing wearing comfort
- Soft nose bridge
- When water droplets condense on the lens, the Scotchguard™ anti-fog coating turns them into a thin, transparent film so that the safety goggles with frame do not fog
- Frame designation: 166 FT
