

Hand demagnetising device

For universal use.

Application:

For demagnetising the surfaces of larger workpieces. Mobile use.

Execution:

- For connection to 230 V AC, 50 Hz, degree of protection IP 40, power-on time 50 %.
- Handy device with plastic housing for focused demagnetising of large surfaces. The device is also suitable for separating steel parts and for conveying lightweight bulk material. The device is switched on and off via an illuminated pushbutton. Supply cable, 3 m with plug.

Delivery:

1x manual demagnetising device incl. power plug and 3 m cable.

Art. no.	24492 220
Brand	SAV WALKER HAGOU
Manufacturer Part Number	890.70-HD-2
Model	HD-2
Length	215 mm
Width	150 mm
Height	95 mm
Max. penetration depth	40 mm
Max. switch-on time	5 min
Real switch-on time	30 %
Nominal voltage	230 V/AC
Weight	2.2 kg
Gross Weight	2.598 kg
Product Group	230
