

## Pneumatic safety coupling HSK Safety

Compatible with BILZ HERMETIKUS compressed air system

### Application:

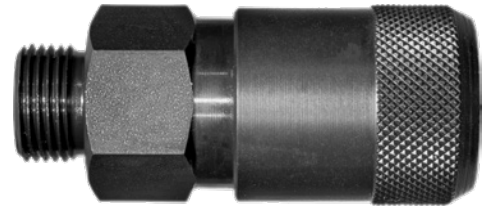

For safe connection of hoses to pneumatic machines and accessories. Also suitable for permanently installed compressed air lines.

### Execution:

- The shut-off valve is automatically opened when coupling, and when uncoupling, the flow is automatically cut off
- Corresponds to ISO Standard 4414

### Advantage:

- Prevention of whiplash effect when uncoupling, for increased safety at the workplace
- Low pressure losses due to favourably shaped valve in terms of airflow
