

Global Change Notification (GCN)

Product Family 1.25 W/B 10694052

GCN Number

Series 502382/502386 June 22, 2015

Date Issued

Reason For Change Tooling / Equipment Transfer

Change Description This is to inform you of a transfer plan between Molex Japan's suppliers for molding dies of 502382/502386 series (1.25 W/B Single Rec Hsg). This transfer aims to build a more efficient manufacturing structure of a molding process to meet customer demand. Molex starts to transfer the molding dies at the beginning of June 2015. There will be no change in a final assembly site of Molex Malaysia. There will be no influences on product's fit, form, or function. Molex will surely implement a quality test to avoid any quality issues. Assembly work with use of components from the new supplier is scheduled to start around 23rd July 2015 (This schedule will vary by each product, and might be changeable due to Molex's transfer arrangements and demand from our customers).
