

Power Grip clamping film (Super roll)

Application:

For clamping unstable workpieces that otherwise cannot be clamped due to their shape.

Execution:

- Particularly suitable for thin, unstable items that would become deformed or damaged if clamped in the normal way.
- Made of special composite
- Up to 200 N/cm possible
- Super roll with a mesh backing film for higher retention forces when securing irregularly shaped parts
- POWER-GRIP is non-toxic and does not leave any residue when removed

Advantage:

- Connects to steel, non-ferrous metals, glass, wood and most plastics.
- 0.0125 mm thick holding medium for precise clamping
- Enables 5-sided machining
- Reduces fixture costs
- Ideal for small batch sizes

Art. no.	26223 105
Brand	IBT
Manufacturer Part Number	X10250
Design	Super roller
Film length	1500 mm
Film width	300 mm
Min./max. retaining force (depending on support plate surface)	30-200 N
Gross Weight	0.040 kg
Product Group	278
