

Digital hand-held refractometer

Digital hand-held refractometer

ARIANA

Application:

The digital hand-held refractometer enables a quick check of emulsion concentrations in coolants and lubricants. The concentration can be read from the hand-held refractometer display.

Advantage:

- Quick and sure concentration testing
- Easy to read, ideal for spectacle wearers
- Prevents rust caused by insufficient concentration

Delivery:

Incl. battery, pipette, operating instructions, plastic case
