

Steel ruler

Accuracy class I, steel

Execution:

- Top edges finely ground and calibrated, flat side precision-ground. Rulers up to 1500 mm have rectangular section, rulers above 2000 mm have a double-T section and 2 hand slots
- Rectangular section
- Test surfaces finely sanded
- Straightness of test surfaces according to DIN 874

Art. no.	37435 100
Length	1000 mm
Cross-section length x cross-section width	50 x 10 mm
Accuracy class	I
Weight	4 kg
Material	Steel
Calibration Group	CG
Gross Weight	3.800 kg
Product Group	375
