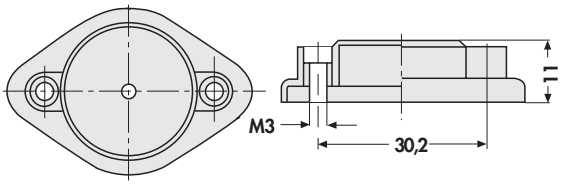
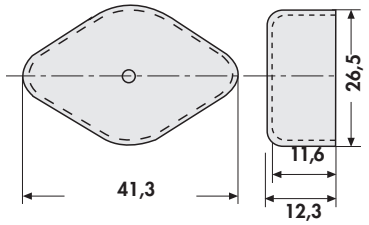
Isolierkappen Isolierbuchsen | Insulator caps Insulator sleeves | Capots isolants Coussinets isolante

IK 341 3



IK 3



Unterschiedliche Flanschhöhen der Transistoren werden durch Einpreßbuchsen ausgeglichen.

Pressed in sleeves will compensate for different transistor flange levels.

La compensation des diverses hauteurs des flasques de fixation des transistors est assurée par des canons noyés.

Technische Daten:
Material: Kappen: glasfaserverstärktes Polyamid
Brennbarkeitsklasse: UL 94: V-0
Ausgleichsbuchsen: Messing, vernickelt

Technical Data:
Material: Caps: glassfibre filled Polyamide
Flammability: UL 94: V-0
Pressed in sleeve: Brass, nickel plated

Caractéristiques techniques:
Matière: Capots: Polyamide renforcé de fibre de verre
Inflammabilité: UL 94: V-0
Canons noyés: Laiton, nickelé
