

Pyropen Junior

Product no.: T0051607599

Benefits

- › Manual-ignition - can easily be ignited manually with lighter or match
- › Fast heat up time - Ready to use in 30 seconds due to its fast heat up time
- › Solder on the go, even outdoors - Complete your soldering task anywhere, without the need for a mains supply or an obstructing cable in the way
- › Versatile functionality for numerous applications - additional hot blow function for shrinking hoses
- › Temperature adjustable from 250° to 450°C - Variable adjustment of soldering temperature between 250° to 450°C when used as soldering iron, 430°C when used as hot air blower
- › Easy refill with Weller butane gas - No need for cords, batteries or cartridges, easy refill with Weller butane gas (Weller® Cat. no. WB1 or WB2) in just a few seconds for an almost uninterrupted workflow
- › Protective aluminium cap - Increased security with protective aluminium cap to prevent being fitted when iron is on

Technical Data

Active Tip heating element technology	---
Power Response heating element technology	---
Silver Line heating element technology	---
Voltage	---
Power	ca. 20 - 60 W
Tip range	71-xx
Supply unit	---
WX-compatible	---
Temperature range °C	250 - 450
Temperature range °F	480 - 842
Heating time	---
Safety rest	---
Safety rest (optional)	---
Barrel	---
Integrated direct extraction	---
