ANT Development Kit

The ANT development kit offers a comprehensive set of ANT modules, PC tools and resources to assist

- Evaluation of ANT as a practical Wireless Sensor Network solution
- Evaluation of ANT chip and chipset solutions
- Design of ANT product prototypes and network demonstrations using ANT module and chip sets
- Evaluation of using SensRcore as an easy wireless sensor development platform, writing scripts and configuring modules
- Design of PC applications linking to ANT products and networks
- Access to the ANT developer's zone

ANT Development Kit provides

- Easy setup network demonstrations
- 4 x RF drop-in modules
- 2 x battery boards
- 2 x I/O boards or EEPROM boards
- 2 x USB interface boards
- 2 x CR2032 coin cells

ANT developer's zone

The ANT developer's zone offers ANT development PC tools, source codes, reference designs and application notes.

Ordering Information

Part Number	11TS33 M5IB	AP1 M5IB	AP281 M5IB	C782 M5IB	Battery Board	I/O Board	EEPROM Board	USB Interface Board	Status	Targeted Chips
ANTAP2DK1 (Nordic p/n nRF24AP2-DK1)	x2	0	x2	0	x2	x2	0	x2	Active	nRF24AP2 AT3
ANTC7EK1	0	0	0	x4	x2	0	x2	x2	Active	CC257x
ANTDKT3 (Nordic p/n nRF24AP1-DK3)	x2	x2	0	0	x2	x2	0	x2	NRND	AT3 nRF24AP1
