

CONCRETE FRAME SCREW

Suitable for use with

- CONCRETE
- BRICK
- WOOD
- STONE

1 FREE
TXD 30
INSERT BIT
PER BOX

- 1 TXD drive**
 - For increased torque control and reduced 'cam out'
- 2 Locking ribs underneath head**
- 3 Through-fixing**
 - Eliminating the need for marking and re-positioning
- 4 High load capacity**
 - With interlocking 'hi-low' thread to give high pull out resistance in base materials
- 5 Stress-free fixing**
 - Enables materials to be fixed at closer edge distances than normal expansion anchors
 - Serrated threads aid debris removal to reduce fixing stress
- 6 Versatile fixing**
 - Can be used for fixing window/door frames, timber batons, facades, laths etc. into masonry

Characteristics

yellow tropicalized

txd drive

hi-low thread

serrated thread

Applications

upvc profiles

concrete

natural stone

solid brick

hollow hole brick

- Exceptional, reliable performance on a wide variety of materials
- Edge-close fixing
