## Pushing the limits

Feature	Virtually seam-free water-repellent, soft full grain leather upper	Lightweight design with anatomical tread	Multilayer shock absorption system comprising double layer PU outsole and comfortable insole	Metal free toecap and penetration resistant midsole	Durable PU scuff cap
					
Advantage	Breathable, eliminates pressure points and keeps feet dry for longer.	Supports the foot's natural movement. Reduced weight.	Outstanding shock absorption under feet especially in heel and forefoot areas.	Extremely flexible. No thermal conductivity. Midsole covers 100% of the foot bed.	Protects leather and prevents abrasion damage particularly when kneeling.
Benefit	Increased product life and high levels of wearer comfort.	Helps minimise wearer fatigue.	Minimises potential back, knee and joint problems particularly when standing	Does not restrict the natural movement of the foot. Increased comfort.	Increased product life
