

JBC FL50

Flux bottle 500 ml

JBC

FL50 is a liquid flux water based designed to be used in the preparation of printed circuits prior to soldering an SMD component, especially flat pack integrated circuits.

Equiped with decanting tuve.

How to use:

1. Clean and degrease the surfaces to be soldered.
2. Use the brush to apply the flux to the integrated circuit pads.
3. Do the solder joint.
4. If you want to remove it, use water for cleaning.

SPECIFICATIONS

Net weight 0,58 kg (1.28lb)

DIMENSIONS AND WEIGHT

Package 228 x 115 x 120 mm / 0.69 kg.
8.98 x 4.53 x 4.72 in / 1.51 lb.
