

JBC S1069

Sponge for Advanced Stands 46 x 46 mm

The sponge is the softest cleaning method to eliminate excess in any soldering or rework job.

It allows you to maintain tips continuously clean by reducing their wear.

It has been designed to be placed into the tip wiper. This way you just need one hand to use it.

This sponge was supplied with discontinued stations such as AD2700 or AD2950.
