Datasheet change of SOD523-products

Information Notification

The data sheets of several products in the SOD523-package are changed. The change is a harmonization of the drawings of the recommended reflow soldering footprint. The change is done merely to have the same drawing in all data sheets of products in the SOD523-package. The products are not changed. There is no need of the users to change the solder layout in case the one recommended in the previous data sheets is in use.

Please use the below link to access related documentation to this change notification:
