

98 N hand-held sensor with shape-adapted special base

Accessories for UCI hardness tester SonoDur

NewSonic

Application:

Handheld measuring probe 98 N (10 kgf) with integrated probe guidance. Ideal for EN ISO 1090, structural steel, cast iron and forged parts, mounting elements.

Execution:

- Stainless steel housing

Advantage:

- Innovative integrated probe guidance for well-controlled test processes
- Specially shaped special base protects the Vickers diamond against direct material contact impacts during positioning

Delivery:

Hand-held sensor without connecting cable

Art. no.	42170 750
Brand	NEWSONIC
Manufacturer Part Number	2215691
Test force	98 N
Gross Weight	1.130 kg
Product Group	486
