

Honing brush

Grain size 180 SiC, for hydraulic cylinders and small engine cylinders, etc.

Application:

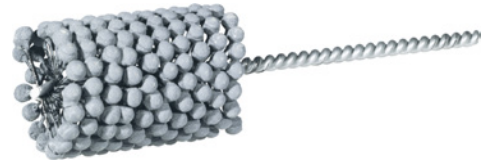

For easy and fast honing on any machine system, including hand drills.

Execution:

- Small abrasive bearings are permanently attached to strong nylon brushes
- Brush rotates during insertion and removal and thus produces accurate cross grinding
- Place your order using the actual cylinder diameter: All honing brushes have a 10-12% larger diameter than the respective specified diameter.

Advantage:

- No risk of breakage unlike standard honing stones.
- Saves time-consuming adjustments to the diameter
- Extremely flexible application, can be used on any machine system

Art. no.	69546 075
Compatible with drill hole diameter	14 mm
Grid size	180
Filling length	60 mm
Length	200 mm
Gross Weight	0.015 kg
Product Group	61B

EAN

843469120038
