

SPEEDY RJ45 Crimp Tool

Ratchet Crimp Tool

Our ratchet crimp tool is designed for professional installers using ***SPEEDY*** RJ45 plugs. This superior quality tool has been specially designed to ensure that ***SPEEDY*** RJ45 terminations are not only faster than using other plugs but also consistent, reliable and repeatable.

Features

- Crimps ***SPEEDY*** RJ45 Category 5 and Category 6 8p8c plugs
- On ***SPEEDY*** RJ45 , crimps and trims surplus wires in a single operation, with a neat, flush finish
- Releasable ratchet action ensures consistent crimps
- Built in cutter and strippers cater for both flat and round cables
- Tool steel die head provides all round connector support and enables a uniform crimp force
- Every termination meets FCC specifications
- ALSO - crimps standard 8p8c (RJ45), 6p6c (RJ12) and 6p4c (RJ11) plugs
