

BFPB POWER TERMINAL BLOCK

Patent Pending

Marathon Special Products is proud to announce significant additions to our **Power Terminal Block** product line. These new additions will fill a void in the market for a UL approved terminal block to distribute power at high amperage and voltage levels with a versatile design that can come in many configurations to suit individual requirements. These products are ideal for power distribution options when terminating flexible stranded wire with crimp lugs or flexible busbar.

FEATURES / BENEFITS

- Accommodates power distribution options for listed lugs sized up to 1000kcmil.
- First power terminal block of this size with UL approvals for 1000V.
- First power terminal block to have a high SCCR rating (35k) with no over current protection device. SCCR ratings up to 100k with specified fuse protection.
- Eliminates the need for self fabricated junction blocks in unique applications with large or abnormal wiring combinations.
- Modular construction to accommodate numerous terminal options.
- Reliably terminates flexible stranded classes of wire with crimp lugs.
- Suitable to terminate and distribute power with flexible busbar.

SPECIFICATIONS

- 1000V, 1605 Amps
- Available for 2 to 6 stud terminal positions
- High SCCR ratings up to 100k
- UL and cUL recognized component

APPLICATIONS

- Commercial HVAC
- Large motor controls
- Pumping and mining controls
- Solar (high voltage)

Marathon's short lead times, technical support and excellent customer service ensure receipt of quality product as quickly as possible. Please visit www.marathonsp.com for detailed datasheets and specific product information. You can also contact us at marketing@marathonsp.com or (419) 352-8441.

Marathon Special Products has been an industry leader in electrical/electronic components designed for circuit protection and connection applications for over 60 years.
