

## Forklift hooks double

### Application:

As an add-on unit for all types of stacker.

### Execution:

- The rotating and pivoting compact hooks are attached outside the dovetail opening. Thereby, the dovetail opening can be fully utilised and there is no jamming of the stacker dovetail on inclined pulling
- Effortless conversion into a safe lifting device
- Double, can be locked on both fork arms via cross arms, load can be divided into 2 fork arms
