

Chalk line roller with colour powder

ZENTEN

Application:

For simple marking of lines.

Version:

- Lightweight and low-wear die-cast magnesium housing
- When pressure is applied to the axis, the line can be drawn out in idle mode, without the crank rotating
- Storage space for hook integrated in body
- Large inner capacity for colour powder

Advantage:

- Quick-action retraction with 5:1 ratio
- Hardened hook with curved spikes (can be nailed onto edges)
- 3-part set with chalk line roller and 2 x 250-g bottles of colour powder, in blue and red
