

wide cable bridge

Application:

Allows cables, hoses and piping to be driven over without issue and drastically reduces the risk of tripping. Designed for occasional heavy loads, tested up to 12 t axle load.

Execution:

- cable duct size: 2 ducts 68 x 50 mm (W x H), 1 duct 55 x 50 mm (W x H)
- extendible modular system
- cable bridge dimensions (L x W x H): 960 x 600 x 75 mm
- combined net length: 870 mm

Advantage:

- high load-bearing capacity owing to special solid rubber compound
- ribbed, non-slip surface
- permanent attachment possible owing to integrated dowel mounts

Art. no.	50226 010
Colour	Black, Yellow
Length x width x height	960 x 600 x 75 mm
Design	Basic element
Number of ducts	3
Gross Weight	27.000 kg
Product Group	504

EAN

4055381350325
