

Name	L3 Metal	Article number	L3METAL	  CAT II
Colour	White / Blue	Glove thickness	Palm: 0,8-0,9 Back of hand: 0,5-0,6	
Size	7-11	Packaging	6 pairs / plastic bag, 60 pairs / carton	
Certification number	0075/1157/162/08/12/0632	Barcode	7: 7340022523617, 8: 7340022523624, 9: 730022523631 10: 7340022523648, 11: 7340022523655	

Glove purpose	Designed for metal handling and cut resistance
Materials	Glove in goat leather palm and cotton fabric in back of hand. Inner lining in SupraBlock Cut fabric.
Fitting <small>(elastic tight, tight, close, loose)</small>	Tight fit.
Abrasion	Good abrasion resistance.
Cut	Cut resistance is provided by high strength and low hardness. Strength ●●●●○ Hardness ●○○○○
Tear	High tear resistance makes the glove dangerous for entangling.
Puncture	Good puncture and flat needle resistance, but limited hypodermic needle resistance.
Heat and insulation	Suitable for contact with heated objects. Not suitable for use in cold temperatures.
Water/Oil	Not water / oil resistant. Palm has moderate resistance to organic solvents and hydrolysis.
Grip	Very good dry and wet grip.
Breathing	Very good breathing properties.
Impact	Low impact protection due to lining.
Chemical safety	REACH safe.

Disposal	No special waste	Storage and cleaning notice	No wash.
Suitable industries	General industry, bottling operations heavier assembly tasks.		Store in cool, dry and dark place. Avoid storage for several years.
