

Type ER precision collet chuck

GERC-B, DIN 6499/ISO 15488-B, concentricity of 5 µm

FAHRION®
FAIR BEYOND PRECISION

Application:

For clamping tools with straight shank.

Execution:

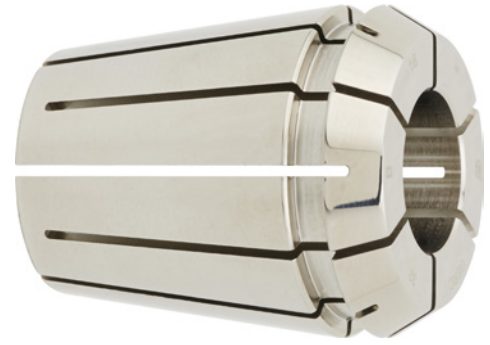

- For ATORN precision collet chucks and Fahrion CentroP precision spring collet chucks.
- With FAHRION|Protect corrosion protection for longer service life.
- Surface super-finished for enhanced retention force.

Advantage:

- Collets do not need to be replaced as often or can be used longer for specific applications.
- Greater concentricity extends tool service life.

Delivery:

1x type ER precision collet chuck.

Art. no.	23322 579
Brand	FAHRION
Manufacturer Part Number	13716011500
Collet type	470E GERC32-B
Clamping diameter	15 mm
Min./max. clamping range	3-20 mm
Outer diameter	33 mm
Length	40 mm
Clamping bypass	-1 mm
Gross Weight	0.135 kg
Product Group	235

EAN
