After Change

Overview

- Molex's copper supplier officially announce that they will not provide C19400 alloy in H1 2022 due to their strategic adjustment.
- In order to ensure supply continuity, Molex evaluate and select the new sourcing alternative copper to ensure the same performance on Molex product. Considering the necessary qualification and same type copper, Molex supposes this should be low risk on product.
- **Product Impact**
 - "no impact to fit, form, function".
- **Part Number Impact**
 - see attached impacted parts list (only products from Molex Chengdu)
- **Planned Implementation date.**
 - In order to ensure supply continuity, Molex will gradually start to use of new materials according to the verification completed. It is expected to switch from end of May 2022.

Product Change Notification (PCN)
