Connectix Cat 6A SFTP Patch Leads are designed to complete the Cat 6A Channel, providing support for extremely high-speed applications including 10GBASE-T.

The Patch Leads are made from shielded Cat 6A cable and are terminated using high performance modular plugs. The fully shielded cable increases signal isolation and helps to prevent contaminant noise from entering the lead. These SFTP patch leads are complementary to the Connectix Cat 6A Cabling System and will provide support for future bandwidth-hungry applications.

Leads are available from stock in lengths from 1 to 5 metres, and in a number of different colours.
