

DreamMate

Alarm clock with fall-asleep-function

- Quartz clock
- 12/24h time display
- Daily alarm with snooze function (programmable intervals)
- Sleep-counter (programmable intervals) to minimize falling asleep problems (optimized principle of "counting sheeps")
- Green backlight

Specifications

Uhr:
 Dimensions: 78 x 44 x 143mm
 Power requirements: 2 x AAA Micro 1,5V
 (not included)

DreamMate can help to influence falling asleep problems positively. The basic principle of this device is to direct a permanent attention on one particular thing and thus to prevent sleep-hindering brooding cycles.
