

## Torque wrench with reversible ratchet, adjustable from 1 to 320 Nm

With calibration certificate according to DIN EN ISO 6789

**ATORN**

### Application

For controlled tightening in a clockwise direction with a high degree of accuracy

### Version

- The torque is set by turning the handle
- With lever ratchet, suitable only for controlled clockwise tightening.
- Haptic and acoustic adjustment aid
- Audible and perceptible release when the set value is reached
- Dual scale with Nm and lbf.ft. display
- Ergonomically shaped handle with comfortable, textured surface
- Rapid securing and opening via the locking ring

### Advantage

- Robust tubular design
- Reversible ratchet with locking push button
- Viewing window protects scale from damage

### Delivery

Secure and safe transport/storage in handy cylindrical package

<b>Art. no.</b>	<b>52240 320</b>
