

LUBRITool® LUBRICATION TOOL

Fast + automatic: lubrication in 5 seconds

Application:

Until now, manual lubrication has required a maintenance period of several minutes. To make this a thing of the past, RÖHM has developed the Lubritool® lubrication tool. Provided with the correct timing information by the machine control system, the Lubritool® is automatically loaded directly from the tool magazine and supplies the clamping set with the ideal amount of lubrication within seconds.

Advantage:

- **OPTIMAL LUBRICATION:** The right lubricant. At the right time. In the right quantity. In the right place.
- **MINIMUM MAINTENANCE TIMES:** Lubrication in 5 seconds instead of 5 minutes. Increased machine availability by approx. 10 h/a.
- **AUTOMATED LUBRICATION:** Never forget maintenance. Helps maintain the warranty of the clamping system.
- **COMPACT DESIGN:** Suitable for any common machine tool.
- **RESOURCE-EFFICIENT LUBRICATION:** Precise dosing of the lubricant.

Art. no.	22475 002
Brand	RÖHM
Manufacturer Part Number	1334306
Type	Tool holder
Tool holding device	HSK A50
DIN	69893-1
Outer diameter	65 mm
Length	52 mm
Length 2	195.5 mm
Gross Weight	1.520 kg
Product Group	2AT

EAN

401920848984 1
