

## Wire cable and cable cutters, high lever transmission

Handles made of forged aluminium, cutting diameter up to 7 mm

### Application:

For cutting wire cables, steel cables, wires of all types and wire gauze.

### Version:

- Hardened high-quality steel blades and connection parts, forged aluminium handles with lifelong guarantee
- Case-hardened blades

### Advantage:

- Even cutting without pinching or prior tying of cables thanks to triangular cutting
- Easy cutting thanks to optimum lever action
