

Order No: 0A58

HOLDER A 58

The A 58 holder for the i-TOOL TRACE is used for safe storage of the soldering iron and the matching soldering tips of the tip series 142. Thanks to the patented Tip'n'Turn technology, the soldering tips, even when hot, can be changed and stored in record time using the holder. Simply insert the soldering tips into one of the recesses provided, turn them by 10° and remove the soldering iron again. They can then be reattached just as easily. Insert i-TOOL TRACE into a tip, turn and take out the soldering iron with the mounted tip.

Technical data:

Abmessungen (BxTxH):	146 mm x 135 mm x 94 mm
Weight (g):	750 g

Accessories:

Dry cleaner (0008M)

Matching soldering tools:

Soldering iron i-TOOL TRACE (0140CDJ).
