

Film thickness gauge

With lifting device:

Application:

For measuring the thickness of films.

Execution:

- Glass and external ring made from one piece
- Insulated handles

Delivery:

in a cardboard case

Art. no.	33212 010
Calibration Group	CF
Min./max. length measuring range	0-1 mm
Scale value	0.001 mm
Measurement travel of one pointer revolution	0.2 mm
Bracket depth	30 mm
Contact force (DIN 53505)	1.3 N
Measuring surface diameter	6.35 mm
Display	Analogue
Gross Weight	0.400 kg
Product Group	331
