

Adjustable sliding door cabinet with adjustable feet

Height 720 mm, width 800 and 1200 mm

Execution:

- Cabinets and shelves have 19-mm-thick shelves (melamine resin coating on both sides) and a slotted back panel.
- Shelves are adjustable in 32-mm increments
- Lateral roller shutter cabinets and sliding door cabinets with 25-mm-thick shelves (melamine resin coating on both sides) and integrated back panel
- Drawers with 19-mm box base and sturdy, smooth-running roller guide

Advantage:

- Sturdy metal hinges and door dampers ensure the door can be closed gently
- Folding hinged doors with self-closing system
