

Product Name - Bosshead, Heavy Duty - High Torsional Strength, Screw Adjustable

- Made from high grade metal alloy, finished with non toxic powder coating. Non-ferrous, rust free & long lasting use for any laboratory application
- Holds rods orthogonally (90 degrees) to one another. Compact design ideal for when you need to connect two rods and apparatus in tight places without sacrificing strength
- Threaded metal, single piece clamping screws, able to hold rods up to 15mm in diameter
- Designed for use in professional laboratories, but is an ideal choice for science classrooms and household use

Manufacturers Code - PRBH03

Brand	Eisco
Weight	270 gm
Dimension	10.2 x 10.2 x 17.8
Country of Origin	India
