Product Change Notification

Title: PCN #2023005 TDK-Lambda Americas Inc. LS series manufacturing location transfer to TDK Thailand

Please be informed that TDK-Lambda's LS series of AC-DC power supplies will be transferring from TDK-Lambda's Senai Malaysia production to TDK (Thailand) Co. Ltd , starting August 1st 2023. During the transition, both the Malaysia and Thailand facilities may be utilized for production of the models. This transition is part of our capacity expansion program for the Senai manufacturing facility.

The base models are the LS25, LS35, LS50, LS75, LS100, LS150 and LS200. All output voltages, option codes and non-standard models are included (LS200-24/L for example) in the move. A list of the standard part numbers listed below.

There is no change to product price, form, fit, or function and our standard safety certification to IEC/EN/UL/CSA 62368-1 is not affected.

We assure you that the quality will remain the same with our QC and QA systems in place.

For any other questions concerning this notification, contact your local sales office or TDK-Lambda Americas Inc. customer service.

Tom Tillman
Director of Marketing
