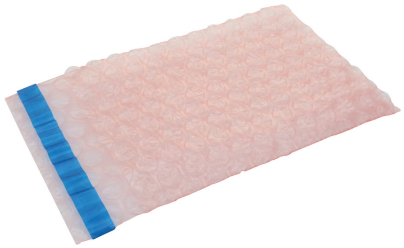
Pink Antistatic Bubble Bag

RoHS Compliant



Features

- Blow-molded with anti static additives from LDPE and LLDPE
- The sealed air bubble oers superior cushioning and shock proof function
- Standard colour: Pink
- Soft texture and flexible material
- Manufacturing method: Two layer extrusion with calendar role to thermo-form bubble
- Low cost
- Keeps inside packed contents free from damage by electrostatic

Antistatic bubble film will not produce electrostatic charges during handling. Static charge is dissipated over the surface of the film preventing discharge onto the electronic device packaged.

Notes: Different levels of electrostatic discharge protection are required for different electronic devices.

Configuration(s):

Bags are offered heat sealed along the three edges and provided with a low static 30mm peel and seal lip.
This product is amine free to ensure its compatibility with other materials frequently used in the electronics industry.
