

Advisory – PCN UPDATE

SUBJECT: *Manufacturing and testing capacity has been established in Subcontractor Lingsen located Taichung, Taiwan for selected High Voltage MOSFETs*

Dear Valued Customer:

As part of the Vishay Siliconix commitment to delivering customers with reliable and cost-effective products, we are announcing the qualification of Lingsen for the assembly and test located in Taichung, Taiwan on selected High Voltage MOSFETs. The package types included are the TO220, TO252 (Dpak) and SOT223. Power MOSFETs shipped from this facility will be tariff-free for US based customers and shipments. This advisory is intended for US based customers and orders.

To take advantage of this tariff-free initiative, customers will need to order the parts with a new ordering prefix code “-BE3” (instead of our standard -GE3). The table showing the current and proposed ordering codes can be found on page 2 and 3 of this document.

There will be no effect on the quality, reliability, or performance. Shipments from the new location will start as referenced in the released timing on page 2 and 3.

This is an advisory and does not require your response. Qualification results and samples, should they be required will be available as referenced in page 2 and 3.

For additional information, please contact your local Sales representative or the undersigned below.

Sincerely,

Michael Hsieh
Vishay Siliconix
Manager, Product Marketing
